Investment Model Distribution Platform
Integrated with Apex Rebalancer

Key Metrics at a Glance

44 Active Rebalancer Clients	33,080 Accounts on Platform
5 Model Providers Live	FREE For rebalancer clients

Model Provider Ecosystem

Executive Summary

Model Marketplace is Apex's investment model distribution platform integrated within Ascend Rebalancer, allowing advisors to subscribe to and implement professionally managed models from leading investment managers.

Models will generate trade proposals based on market activity that align investment portfolios according to a defined set of holdings and their respective weights. When providers rebalance their models, updates are automatically delivered through Apex to subscribed advisors. Updated model holdings are reflected in the next rebalancing cycle—no advisor intervention required.

Key Value Propositions

- Institutional Quality - Access models from leading investment managers including State Street Investment Management, Franklin Templeton, PIMCO, Aptus, and Zacks
- Seamless Integration - Built into Apex Rebalancer, Custody and Clearing workflows
- Scalable Distribution - 44 firms with 33,080 accounts and growing on rebalancer

Why Model Marketplace?

Many Apex Rebalancer clients manage proprietary models. Model Marketplace offers a complementary approach, allowing firms to blend their own custom strategies with institutional models or offer clients choices across proprietary and third-party solutions.

Approach Comparison

Dimension	Custom Models	Model Marketplace	Hybrid Approach
Control	Full control	Provider-managed	Mix both
Operational Effort	High - manual updates	Low - automated	Medium
Access	Limited	Institutional quality	Best of both
Technology Cost	Internal resources	3 BPS or \$0.20/acct	Variable
Time to Market	Slow	Immediate	Fast
Scalability	Limited	High	High

For Wealth Clients

- Immediate access to institutional models and investment expertise
- Automated updates to drive efficiencies and investor returns
- Apex-vetted providers streamlines due diligence

For Model Providers

- Distribution to Apex’s growing client base of Fintech and Wealth firms
- Centralized platform and scale – deliver models and updates to Apex, we distribute

How It Works: Process Flow

Apex Side

Discovery & Access

- Client/Correspondent submits a service center ticket to onboarding asking to enable MMP

The screenshot shows a service center ticket titled "Direct Indexing and Model Marketplace". On the left, there are dropdown menus for "Brand" (Apex Ascend), "Requester" (Vasilios Rajendra), and "Assignee*" (Onboarding). The main area shows a message from Vasilios Rajendra dated Friday 7:16 pm, asking to enable model marketplace and direct indexing in the production environment. The message is highlighted in a light blue box.

- Onboarding enables MMP in client configurator (correspondent-level)

The screenshot shows the Apex Fintech Solutions client configurator interface. On the left is a sidebar with navigation options: Accounts, Apex Insights, Trading, Ledger, Transfers, Exceptions, Securities, Billing, Admin, Access Management, Bulk Upload - Internal, Calendar, and Client Configurator. The main area displays the configuration for "Correspondent • State Street Corporation". The status is "ONBOARDING", the correspondent code is "SSWS", and the business line is "Self Directed Retail". The "Experience Settings" tab is active, showing "Ascend Workstation Experience" set to "Enterprise". The "Model Marketplace" section shows "Enabled" with a green checkmark and "Yes". The "Investor Tenant Configuration" section shows "Ascend Investor Enabled" with a green checkmark and "Yes".

- User access groups: BD Client Admin, BD Client Operation, RIA Client Admin, RIA Client Operations
- Model Marketplace is ready for advisors to use

3. Browse available models
4. Click on desired model (ex : Franklin Templeton Core) and click “**Subscribe**”

The screenshot shows the 'Models' section for the 'Franklin Templeton Core Multi Manager 10 EQ/90 FI ETF Model'. The page is dark-themed. On the left is a sidebar with navigation options: Accounts, Apex Insights, Trading, Model Marketplace, Order Management, Trade Management, Ledger, Transfers, Exceptions, Securities, Billing, and Admin. The main content area has a search bar at the top. Below it, the model name is displayed with an 'AVAILABLE' tag and a 'Subscribe' button. A description states: 'Franklin Templeton - The Franklin Templeton Multi-Manager ETF Models are a suite of multi-asset portfolios designed to provide clients with allocation solutions across a spectrum of risk profiles.' Below this is a 'Holdings' table with a search bar. The table lists four holdings: FLCB (Franklin Templeton ETF Trust) at 32.5%, AGG (iShares Core U.S. Aggregate Bond) at 30.5%, FLGV (Franklin Templeton ETF Trust) at 8.5%, and FLHY (Franklin Templeton ETF Trust) at 6.5%. To the right of the holdings is a 'Summary' section with details: Provider (Franklin Templeton), Investment Vehicle (ETF), Inception Date (12/31/2021), and Last Updated (05/07/2026). At the bottom right is a 'Resources' section with links for 'Fact Sheet' and 'Website'.

Symbol	Target Weight
FLCB FRANKLIN TEMPLETON ETF TRUST	32.5%
AGG ISHARES CORE U S AGGREGATE BD	30.5%
FLGV FRANKLIN TEMPLETON ETF TRUST	8.5%
FLHY FRANKLIN TEMPLETON ETF TR	6.5%

5. Accept **Terms and conditions** for Apex and the Model Provider’s

The screenshot shows a modal dialog box titled 'Accept Terms & Conditions'. The text inside reads: 'In order to subscribe to the model provider please review the items below to proceed.' Below this, it says 'Franklin Templeton Terms and Conditions' followed by a checkbox labeled 'I accept the terms & conditions'. At the bottom of the dialog are 'Cancel' and 'Accept' buttons. The background shows a blurred view of the model details page.

6. Log into **Rebalancer** → Settings → **Models** to see your subscriptions

The screenshot shows the 'Settings' page in the Rebalancer interface. The page has a light blue header with the 'X' logo and navigation links for 'Clients', 'Rebalancer', and 'Settings'. The main content area is divided into five sections, each with an icon and a title: 'Models' (with a document icon), 'Frameworks' (with a piggy bank icon), 'Asset Classes' (with a dollar sign icon), 'Rebalancer' (with a balance scale icon), and 'Direct Indexing' (with a document icon). Each section has a brief description of its function. The 'Models' section is highlighted with a blue border.

7. Assigned models will automatically appear under “ Models ” section. Ex :

11. To unsubscribe models → **Remove** the holdings/models from the client on

Rebalancer → Go to UAT → Model Marketplace → Select the model → Click

Unsubscribe

Note : Client needs to be on the rebalancer in order to use the MMP. Clients get access to rebalancer during standard Apex onboarding process

Roles & Responsibilities

- **Apex:** Platform maintenance, provider onboarding, model distribution automation, client support
- **Model Providers:** Submit accurate allocations, provide rebalancing updates, maintain documentation
- **Clients:** Select models, subscribe through platform, Assign models to clients, and Rebalance

Current Model Providers

- **State Street Investment Management:** Index and ETF strategies (Strategic Partner and Exclusive provider of Passive Strategies)
- **Franklin Templeton:** Global diversified equity and fixed income
- **PIMCO:** Institutional fixed income specialist
- **Zacks Investment Management:** Quantitative equity strategies
- **Aptus Capital Advisors:** Active equity and defined risk strategies

⚠ KEY LIMITATION: *Rebalancer*- Apex does NOT automatically execute trades. Clients must currently review and submit all trade orders manually

Revenue Model & Pricing

 Access to the Model Marketplace is provided to all Apex Rebalancer clients

Rebalancer Fee

3 BPS of AUM or \$0.20 per funded account per month (whichever is greater)

Billed monthly based on assets under management or account count.

Direct Indexing Fees (Optional)

- Standard Direct Indexing: +3 BPS
- Custom Direct Indexing: +6 BPS
- Additional to base Rebalancer fee

Model Provider Fees

Vary by provider and strategy, some managers do not charge explicit fees for their models

Strategic Partner: State Street

- State Street Investment Management serves as a strategic partner and is the exclusive provider of Passive Strategies in the Model Marketplace, providing institutional-quality index, passive and active/passive strategies with ETF based portfolio construction.
- Trusted institutional brand
- Scalable platform for model delivery
- Strategic Partnership with Apex

Rebalancer Integration

Rebalancing adjusts portfolio allocations to match investment targets as markets shift. Apex's Rebalancer generates trade proposals that advisors review and realign portfolios with their desired models

Model Marketplace is fully integrated with Apex Rebalancer, providing seamless subscription management and automated model updates.

Key Features

- **Subscription Management:** Subscribe and manage models within existing Rebalancer workflow
- **Automatic Updates:** Provider changes automatically applied to all subscribed accounts
- **Asset Class Management:** CRITICAL: Users must verify asset class assignments for each security to ensure proper portfolio construction
- **Tax-Loss Harvesting:** Built-in tax optimization capabilities for enhanced after-tax returns
- **Direct Indexing:** Optional customization for ESG preferences, specific exclusions, and tax strategies
- **Portfolio Monitoring:** Real-time tracking of model performance and compliance
- **Trade Management:** Review, accept, and submit trade proposals with compliance oversight

Client Onboarding Checklist

- Discovery call to understand client needs
- Verify Rebalancer subscription and access
- Review available providers and models
- Discuss pricing and get acknowledgment
- Compliance review and approval
- Set up model subscriptions in Rebalancer
- Test on sample account
- Client training on platform
- Provide documentation and disclosures
- Follow-up at 1 week and 30 days
